

CONSTRUCTION NOTICE

FEDERAL HIGHWAY BETWEEN PHILLIP AVENUE AND FLEMINGTON ROAD

9 - 25 JANUARY 2018

Canberra's first stage of Light Rail is coming to your area, and construction is well underway. This is an exciting time in our City and Canberra Metro is working hard to see this vision come to life.

Whilst most light rail construction work is undertaken during day hours behind the protection of concrete barriers, there are occasions when parts of the road network need to be occupied for extended periods to enable necessary light rail related construction.

Proposed works

Please be advised that from Tuesday 9 January to Thursday 25 January 2018 the northbound lanes of the Federal Highway between *Flemington Road / Federal Highway intersection* and *Federal highway / Phillip Avenue intersection* will be closed to all traffic.

This closure will allow for the construction of the light rail track slab between the median of the Federal Highway into the western verge of Flemington Road.

Additionally, the northbound lane of Flemington Road between the *Federal Highway* to the *Epic entrance* will also be closed during this period.

The works will be undertaken during the day shift (7am to 6pm) and night shift (6pm to 7am) to ensure completion.

Detours will be in place as per the attached map.

Potential impacts:

The equipment to be used includes roadsaw and quick-cut saws, jackhammers, excavators, hydrovac trucks, plate compactor and rollers, light vehicles, and trucks.

Due to the nature of the work, some of the activities will be noisy. The project team will limit noise volume wherever possible by reducing the number of machines operating at the same time and turning off equipment when not in use.

Non-tonal reversing beepers will be used and workers will be instructed to keep noise to a minimum.

Thank you for your patience during these important works.

More information:

If you have any questions related to works in your local area or the wider project, please contact Canberra Metro:

Yours sincerely

Canberra Metro Project Team

Safety Tip

A major milestone on the Canberra Metro Light Rail Project that will soon take place is the installation of power poles for the energisation of the system. This is an important reminder to stay safe and be aware of forthcoming changes such as overhead wire installation, power substations and Light Rail Vehicle testing.
